The **Premium Platform** for **Post-Analysis**

# Who Needs SG STATS?

## 1 For Speeding up the Academic Research

Anyone who needs to complete research in a timely manner

## 2 For Smart Insight

Anyone who needs to extract smart insight from original data without additional data processing or graphical generation

## 3 For Lab Management

Anyone who needs to improve laboratory workflow quickly with instantly exported reports

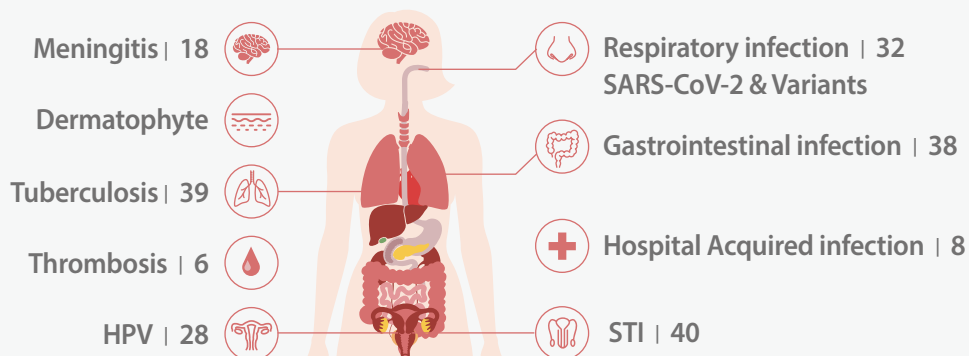

## 4 For Quick Overview of Trend

Anyone related to healthcare who needs to quickly respond to global clinical projects regarding disease severity or infection rate

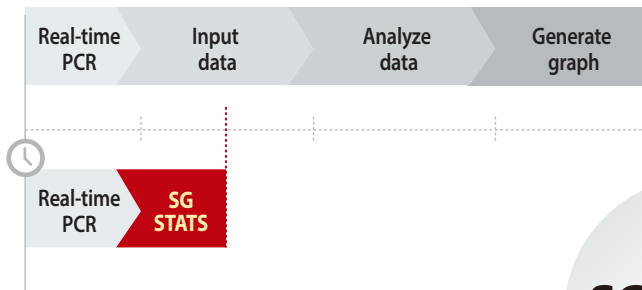

SG STATS covers a wide range of Seegene's multiplex real-time PCR assays.

Including about  
**209 pathogens**  
in 10 criteria

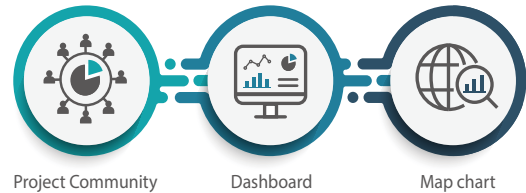

## Time-saving and Efficient Automated Analysis

Save time and labor by automating complex reporting tasks to make better clinical decisions from real-time PCR data

## Build Compelling Stories from your data

Make more compelling and better decisions from data with project community, dashboard, and map chart

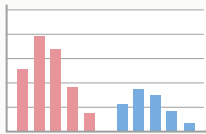

**SG STATS**  
The Premium Platform for Post-Analysis

## Deliver Interactive Analysis with various Customized Options

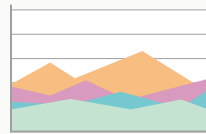

Understand the complex data more accurately with various analysis options (age, sex, symptom, specimen, region etc) that help ensure smarter insight.
